I'm a motivated and dedicated computer science professional with a strong foundation in software development, machine learning, and web development. Currently undertaking a research project under the guidance of *Prof. K Chandrasekaran* and *Dr. Sourav Kanti Addya*. Seeking to leverage technical skills and academic knowledge to contribute to innovative projects and solutions. Committed to continuous learning and excellence in collaborative team environments, aiming to achieve both personal and organizational goals.

EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
M.Tech-R (CSE-IS)	National Institute Of Technology, Karnataka	7.86	2023–Present
B.Tech. (CSE)	NPSEI, Uttarakhand Technical University	72.7%	2018–2021
Diplome (IT)	UBTER	71.1%	2015–2018

SKILLS

- **Programming:** C, Java(Spring, Springboot), Python(Flask, TensorFlow), HTML/CSS, JavaScript (Basics)
- **Miscellaneous:** SQL, Linux, Git, Microsoft Office
- **Soft Skills:** Time Management, Teamwork, Problem-solving, Documentation

RESEARCH WORK

• Efficient Task Offloading for Vehicular Edge Cloud Network

Carrying out research under the guidance of Dr. Sourav Kanti Addya, developing a mobility-based vehicular-edge-cloud offloading model to improve task execution in vehicular networks. The model ensures high QoS and QoE and prevent edge server congestion in dynamic, high-traffic environments.

PROJECTS

• Scheduling Algorithm

Task scheduling based on earliest deadline first was implemented and if the system fails to process then migration of task was carried out to the other system in the network.

- **Tools & technologies used:** Python
- **Soft Skills:** Report writing

• Skin Disease Detection

Analysis of skin disease from 2000 data samples collected using various sources and categorized them into 4 classes: ringworm, measles, psoriasis, and melanoma.

- **Tools & technologies used:** Python, MobileNet, CNN
- **Soft Skills:** Teamwork, Presentation skills, Report writing

• Covid-19 Tracker

A SPA that was built using the Flask framework to keep track of the spread of COVID-19 cases in India. The data was taken from the government website using web scraping and then graphically represented.

- **Tools & technologies used:** Python with Flask, HTML/CSS
- **Soft Skills:** Presentation skills

INTERNSHIP / WORKSHOPS

• Java training: Spring- IOC/MVC/BOOT - Beta Edge Innovations	Dec 2021 – Mar 2022
• Web development training - Nanhi Pari Seemant Engineering Institute	Mar 2020 – Sept 2020
• AWS technical essentials and architecture - Ethnus	Jun 2020
• Xamarin mobile application development - Sarya Technology	Jan 2018
• Web development & SEO Executive - Incrementors Web Solutions Pvt. Ltd.	Jul 2017 – Aug 2017

ACHIEVEMENTS

- 2025 Best Poster paper award (Poster track) in the 17th COMSNETS 2025.
- 2023 Qualified Graduate Aptitude Test in Engineering (GATE) India with 91 percentile.
- 2019 Silver developer at virtual lab bootcamp held at IIT Roorkee India.
- 2018 Volunteer the zonal level sports event held at Govt. Polytechnic Kashipur.
